## Frontier Communications Launches Total360 Business Continuity Service Nationwide

### *Service Minimizes Downtime in Data Recovery from Natural Disasters and Ransomware*

NORWALK, Conn.--(BUSINESS WIRE)-- Frontier Communications Corporation (NASDAQ:FTR) today announced the national release of Total360 Business Continuity & Disaster Recovery Service powered by Datto.

Total360 converts data directly from servers into virtual machine-readable files that can be recovered from a web interface, hypervisor or virtual machine monitor. This innovative way of storing data allows for instant on-site or off-site recovery and helps minimize organizational downtime in the event of a digital or physical disruption or disaster.

"Our long-standing partnership with Datto enables us to deliver the new standard for Intelligent Business Continuity," said Frontier Executive Vice President Ken Arndt. "Our Total360 Business Continuity & Disaster Recovery service provides organizations with a solution that dramatically simplifies the backup and recovery process when facing a natural disaster or Ransomware attack," Arndt said.

Frontier Business has exceeded high standards of performance to qualify for Datto's Blue status, the highest classification only achieved by the top five percent of Datto's business partners worldwide.

"It's such a pleasure to see Datto partners excel in their businesses," said Rob Rae, Vice President of Business Development, Datto. "Frontier Communications has demonstrated its extensive knowledge of the business continuity market, and has completed the requirements of this exclusive, top tier of our Partner Program. We welcome Frontier Communications to Blue status and look forward to growing our partnership even further as they launch their service nationally."
